

Early Childhood Development II – Community Vision Planning

Session II - October 13, 2020

Zoom Webinar Chat Transcript

Corresponding Video Available at: <https://www.youtube.com/watch?v=xGJx1D6Knfo>

Hosted by: Keith County Area Development and Keith County Foundation Fund

Moderated by: Nicole Sedlacek, NPPD

00:23:38 Heather Orth: There are several preschool programs in Keith County. Ogallala Public Schools, Paxton Public Schools (I believe), St. Luke's, St. Paul's, as well as Head Start (already on the list). Are there others that were missed? On top of that, do we need to define "ample" in some kind of measurable way?

00:24:55 Heather Orth: The Rooted in Relationships grant funding has provided access to the training. Not all providers from my understanding have chosen to participate in the training.

00:39:44 Heather Orth: Nicole, can you put the goal page back up that you showed at the beginning? We have some new to the call.

00:53:28 Mary Wilson: SCIP

00:53:44 Lisa Kraus: SCIP=Sandhills Crisis Intervention Program

00:53:57 Heather Orth: Hospitals/Clinics

00:54:17 pabbott: Women's Resource Center

00:54:21 pabbott: CASA

00:54:30 Heather Orth: Ministerial Association

00:55:32 Heather Orth: Mary, is a market analysis something that KCAD can help with/provide guidance on?

00:55:41 Cheryl Roche: What about business leaders and the chamber?

00:56:09 Mary Wilson: Heather - we are absolutely willing to help in any way.

00:56:12 Jo Brown: NCFE —Nebraska Children Family Foundation

- 00:56:51 Heather Orth: Yay, Mary! I love it!
- 01:03:02 Nicole Sedlacek: ,
- 01:04:15 Heather Orth: Ken Snyder makes a great point about what type of education/public awareness is needed about early childhood. It seems to me that part of what is needed in the market analysis is a “barometer survey” of people who live in Keith County.
- 01:17:19 Heather Orth: How do we help deal with the change in family structure/dynamics. Two working parents are very common in Nebraska. We are a working state. Often health insurance is provided through one job and to another, especially when dealing with employment in small businesses and agriculture. (This challenge for quality health insurance is a HUGE change from the way the world was 20 or 40 years ago).
- 01:18:59 Steve Bristol: I must leave the meeting now for volleyball supervision at Prairie View
- 01:19:15 Lisa Kraus: Thank you, Steve
- 01:19:41 Heather Orth: I would like to broaden the family component to more access to parenting classes. If parents can understand the motivation behind their child’s behaviors, they can respond more purposefully and proactively.
- 01:20:51 Heather Orth: We have children raising children. They need our help.
- 01:22:05 Heather Orth: I believe one overarching goal is to become more proactive rather than reactive.
- 01:22:50 Heather Orth: These types of meetings have been amazing! I say keep it up!
- 01:23:01 Cheryl Roche: Thank you!!
- 01:23:10 Mary Pierce: Thanks everyone. Great conversation!
- 01:23:12 Jo Brown: Great conversation tonight!
- 01:23:42 Lisa Kraus: <https://www.kcad.org/community-vision-planning.html>
- 01:24:14 pabbott: Thank you to Mary and Nicole!
